DIVY PATEL

Cybersecurity Analyst | SOC Analyst | Security Engineer
divypatel6854@gmail.com • 856-269-5391 • https://www.linkedin.com/in/divy-patel-101769855a01dp

PROFESSIONAL SUMMARY

Cybersecurity Analyst with 3+ years of hands-on experience in SOC operations, SIEM threat detection, incident response, threat hunting, phishing and malware investigation, vulnerability management, and cloud security. Skilled at correlating endpoint, network, authentication, and application telemetry; enriching IOCs; mapping adversary activity to MITRE ATT&CK; and driving incidents from triage through containment and verified remediation. CompTIA Security+ and CySA+ certified with practical experience in detection engineering and SOC automation.

TECHNICAL SKILLS

SOC / SIEM: Splunk, Microsoft Sentinel (Azure Sentinel), IBM QRadar, Elastic SIEM, Alert Triage, Log Correlation, Threat Hunting
EDR / Network Security: Microsoft Defender for Endpoint, CrowdStrike Falcon, SentinelOne, IDS/IPS, Firewalls, VPN, Wireshark, Nmap, Burp Suite
Incident Response / Threat Intel: Incident Response, Phishing & Malware Analysis, IOC Enrichment, VirusTotal, AbuseIPDB, URLScan.io, MITRE ATT&CK, NIST 800-61
Vulnerability & Cloud Security: Nessus, Qualys, Risk Prioritization, Remediation Tracking, AWS IAM/CloudTrail/GuardDuty, Microsoft 365 Security
Automation & Systems: Python, PowerShell, Bash, KQL, SPL, Shuffle SOAR, TheHive, Windows/Windows Server, Linux, ServiceNow, Jira

PROFESSIONAL EXPERIENCE

Cybersecurity Analyst | Brex |*New York, NY* **May 2025 – April 2026**

- Monitor and investigate SIEM/EDR alerts by correlating authentication, endpoint, network, and application logs; validate malicious activity and escalate with complete evidence.
- Own malware, phishing, suspicious-authentication, privilege-escalation, and endpoint-compromise cases through triage, containment, eradication, remediation, and closure.
- Conduct proactive threat hunting, IOC enrichment, MITRE ATT&CK mapping, root-cause analysis, detection tuning, and false-positive reduction; improve SOC playbooks and escalation procedures.
- Perform Nessus/Qualys vulnerability assessments, prioritize findings by risk and business context, and coordinate critical/high-severity remediation with infrastructure, network, cloud, and application teams.

Security Analyst | Tata Consultancy Services (TCS) |*Gujarat, India* **Jul 2022 – Aug 2024**

- Triaged enterprise Splunk alerts and investigated phishing, malicious URLs, suspicious PowerShell, brute-force attempts, anomalous logins, lateral movement, persistence, and potential compromise.
- Analyzed Windows/Linux event logs and network traffic with Wireshark; enriched IOCs across threat-intelligence sources and correlated indicators across security platforms.
- Supported vulnerability scanning, risk prioritization, remediation validation, recurring reporting, Jira case documentation, and SOC SOP/playbook improvements.

CYBERSECURITY PROJECTS

- **SOC Automation Pipeline — Shuffle SOAR + TheHive**
  - Built an end-to-end alert triage pipeline integrating Shuffle SOAR with TheHive case management. Automated incident response playbooks, reducing manual analyst workload.
- **Splunk SIEM Firewall Log Analysis**
  - Ingested firewall logs into Splunk and built custom SPL dashboards and queries to detect port scans, anomalous traffic, and lateral movement indicators.
- **Automated Phishing Email Analysis Pipeline**
  - Developed a Python-based SOC automation tool for phishing email investigation and IOC analysis. Parsed .eml files to extract IOCs, enriched findings using VirusTotal, AbuseIPDB, and URLScan.io APIs, and generated detailed HTML investigation reports with MITRE ATT&CK technique mapping.

CERTIFICATIONS

CompTIA Security+ (SY0-701)
CompTIA CySA+ (CS0-003)
CompTIA CSAP
AWS Certified Cloud Practitioner (CLF-C02)
Microsoft Security Essentials Professional Certificate
TryHackMe SOC Level 1
CompTIA Network+ Competency Practical (100%)

EDUCATION

M.S. Cybersecurity Rowan University, Glassboro, NJ
B.Tech Information Technology Silver Oak University, Ahmedabad, India
